Claim Rejections - 35 USC § 102

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1,3-6,31 and 33-47 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by EP 0107333.

See the appropriate paragraph of paper 25.

Applicant's arguments filed 1/18/02 have been fully considered but they are not persuasive.

Applicants state EP first mixes the sample and reagents and then injects each sample/reagent mixture to a flow cell. Applicants state the instant invention pumps each of a plurality reagent mixtures into a combined reagent mixture stream at a specific flow rate.

The pending claims have been read to teach multiple streams of reagent and components that go into a means for combining the streams. EP teaches multiple reagent component streams that are combined. The Office does not see where premixed reagent mixtures taught by EP would have been excluded by the instant claims. Furthermore, the instant claims only require "at least one" means for chemical analysis and do not reflect the remarks advanced for simultaneous analysis of more than one stream.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
